*Allowable Subject Matter*

1. Claims 1, 5-7, and 9 are allowed.
2. The following is an examiner's statement of reasons for allowance: In the response filed 10/24/2003, applicant submitted a 4<sup>th</sup> supplemental declaration along with arguments. The examiner considered the new declaration evidence and reconsidered her position with respect to the previously filed declaration, supplemental declaration 3. While the 4<sup>th</sup> declaration demonstrated unexpected results with respect to the negative sensitivity, when reconsidering the 3<sup>rd</sup> supplemental declaration, the examiner decided that the declaration results did indeed demonstrate that compound A had no significant effect on the photographic properties of an emulsion. Therefore, the rejection of record was dropped. The examiner performed an updated search of the prior art of record, but no new relevant references were found. Therefore, the instant claims 1, 5-7, and 9 are now allowable over the prior art of record as the prior art of record fails to teach or suggest an internal latent image direct positive photographic emulsion as described by the instant claim 1 wherein the emulsion is subjected to chemical sensitization in the presence of at least one compound of formulas A, B, and C in combination with a gold sensitizer under the condition that no thiosulfate ion is present during the chemical sensitization.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
